

## World Class Professional Services

+44 (0)1276 534771

Since 2001, we've been working hard to ensure we deliver expert services to you across our key focus areas. These services are underpinned by technical best practice, industry standard methodology and lab simulation. Gradian Services is spearheaded by a Symantec Knight, one of only 15 within the UK. This provides you with access to a world class client-facing solutions architect to ensure design integrity, seamless delivery and service integration.

Importantly, we constantly strive to add that extra value and to deliver you an outstanding customer experience. Whether you need consultancy, engineering or support services, we're here to help you.

Our industry-leading Services will provide you with:

- Collaborative Solution Design: architecture & planning
- Collaborative Solution Build: implementation & deployment
- Solution Operate: functional & regression testing
- Solution Transfer: documentation & handover to BAU
- Solution Training

Our unrivalled expertise spans the Symantec portfolio listed within the table shown on the following page.

## Partnership Made Brilliant™

We're proud to have built strong partnerships with customers such as:

*"Daiwa Capital Markets place real emphasis on driving value from our supply chain to ensure we are getting true value for money. Gradian deliver a refreshing level of expertise, professionalism, and empathy to the Daiwa relationship. Their unique value is best demonstrated through the after-sales experience which is of a very high standard."*
